

Creative Director: Collin Lloyd

Designer: William Chen

Initial Build Notes

- Change serif to a sans serif - across the board
 - Currently, makes the site look dated, especially with white background
 - Switch-up from last week
- Add footer on fully realized version
- Maybe add a gradient / other image treatment to the capitol hero image
- Change color of capitol icon to white to match nav bar
- Decrease height of nav bar by a little bit
- In fully realized build, some hover states would go a long way.
 - Specifically in the nav bar, and while hovering over photos in gallery.
- Increase side margins. The content feels a little too squished to me.
